Politechniki Rzeszowskiej, Rzeszów 2015, 2016, 2017

ISBN 978-83-7934-053-8

144 strony

format A4

oprawa miękka

Cena 20,00 zł

Publikacja sfinansowana z funduszy WBMiL

Wydanie III

CONTENTS

PART 1. INTRODUCTION

- Unit 1. Atmospheric conditions
- Unit 2. Principles of flight control

PART 2. AIRFRAME

- Unit 1. Aircraft basic construction
- Unit 2. Fuselage
- Unit 3. Wings
- Unit 4. Flight control surfaces
- Unit 5. Landing gear

PART 3. PROPULSION

- Unit 1. Propulsion – introduction
- Unit 2. The piston engine – components and principles of operation
- Unit 3. The piston engine – cycles of operation
- Unit 4. Turboprop engine
- Unit 5. Jet propulsion – introduction
- Unit 6. Methods of jet propulsion
- Unit 7. Working cycle
- Unit 8. Compressors
- Unit 9. Turbines
- Unit 10. Combustion chambers – introduction
- Unit 11. Types of combustion chamber
- Unit 12. Exhaust systems

PART 4. HELICOPTERS

- Unit 1. Helicopters – components
- Unit 2. Helicopters – principles of operation
