Table of contents

1. **M.K. Aouf, R.M. El-Ashwah, J.Dziok, J. Stankiewicz:** Partial sums of a certain harmonic univalent meromorphic functions5
2. **R. Borzooei, A. Borumand Saeid, R. Ameri, A. Rezaei:** Involutionary BE -algebras 13
3. **M. K. Dubey, R. Anuradha:** On Generalised Quasi-ideals and Bi-ideals in Ternary Semigroups27
4. **J. Górowski, J. Żabowski:** Remarkable identities39
5. **V.K. Jain:** On the zeros of an analytic function 51
6. **L. Koczan, P. Zaprawa:** On circularly symmetric functions 59
7. **Z. Latreuch, B. Belaïdi:** Properties of higher order differential polynomials generated by solutions of complex differential equations in the unit disc67
8. **L. Rybarska-Rusinek, D. Jaworski, A. Linkov:** On efficient evaluation of integrals entering boundary equations of 3D potential and elasticity theory85
9. **T. M. Seoudy, M. K. Aouf:** On differential sandwich theorems of analytic functions defined by certain generalized linear operator 97
10. **P. Sharma, R. K. Maurya:** Certain subordination results on the convolution of analytic functions 111
11. **A. Zireh, S. A. Hosseini:** Some inequalities for the polar derivative of a polynomial with restricted zeros ..119
