

Journal of Mathematics and Applications

vol. 41 (2018)

Table of contents

1. T.C. Adefokun, D.O. Ajayi: <i>On Maximum Induced Matching Numbers of Special Grids</i>	5
2. W. Al Sayed, M.A. Darwish: <i>On the Existence of Solutions of a Perturbed Functional Integral Equation in the Space of Lebesgue Integrable Functions on \mathbb{R}_+</i>	19
3. H.K. Awad, M.A. Darwish, M.M.A. Metwali: <i>On a Cubic Integral Equation of Urysohn Type with Linear Perturbation of Second Kind</i>	29
4. M. Benchohra, M. Slimane: <i>Nonlinear Fractional Differential Equations with Non-Instantaneous Impulses in Banach Spaces</i>	39
5. P.V. Danchev: <i>A Characterization of Weakly $J(n)$-Rings</i>	53
6. V.U. Ekhosuehi, F.O. Chete: <i>On Population Dynamics with Campaign on Contraception as Control Strategy</i>	63
7. A. Esi, N. Subramanian: <i>Some Triple Difference Rough Cesàro and Lacunary Statistical Sequence Spaces</i>	81
8. M. Gözen, C. Tunç: <i>On the Exponential Stability of a Neutral Differential Equation of First Order</i>	95
9. A.A. Hamoud, M.Sh. Bani Issa, K.P. Ghadle, M. Abdulghani: <i>Existence and Convergence Results for Caputo Fractional Volterra Integro-Differential Equations</i>	109
10. A. Jamel: <i>The Real and Complex Convexity</i>	123
11. D. Karichery, S. Pulickakunnel: <i>FG-coupled Fixed Point Theorems for Contractive Type Mappings in Partially Ordered Metric Spaces</i>	157
12. I. Qasim, T. Rasool, A. Liman: <i>Location of Zeros of Lacunary-type Polynomials</i>	171
13. I. Qasim, T. Rasool, A. Liman: <i>Number of Zeros of a Polynomial (Lacunary-type) in a Disk</i>	181
14. J. Sokół, S. İlhan, H.Ö. Güney: <i>An Upper Bound for Third Hankel Determinant of Starlike Functions Related to Shell-like Curves Connected with Fibonacci Numbers</i>	195
