

Journal of Mathematics and Applications

vol. 40 (2017)

Table of contents

1. Z.S. Ali: <i>De la Vallée Poussin Summability, the Combinatorial Sum $\sum_{k=n}^{2n-1} \binom{2k}{k}$ and the de la Vallée Poussin Means Expansion</i>	5
2. J. Banaś, M. Kot: <i>On Regulated Functions</i>	21
3. A. Boudaoui, A. Slama: <i>Existence and Controllability Results for Sobolev-type Fractional Impulsive Stochastic Differential Equations with Infinite Delay</i>	37
4. C. Dharuman, J.R. Graef, E. Thandapani, K.S. Vidhyaa: <i>Oscillation of Second Order Difference Equation with a Sub-linear Neutral Term</i>	59
5. S. Dudek: <i>Measures of Noncompactness in a Banach Algebra and Their Applications</i>	69
6. A.M.A. El-Sayed, W.G. El-Sayed, A.A.H. Abd El-Mowla: <i>Weak Solutions of Fractional Order Differential Equations via Volterra-Stieltjes Integral Operator</i>	85
7. V.K. Jain: <i>On the Derivative of a Polynomial with Prescribed Zeros</i>	97
8. M.M.A. Metwali: <i>On Some Qualitative Properties of Integrable Solutions for Cauchy-type Problem of Fractional Order</i>	121
9. N. Rao, A. Wafi, Deepmala: <i>Approximation by Szász Type Operators Including Sheffer Polynomials</i>	135
10. S. Reich, A.J. Zaslavski: <i>Ergodic Properties of Random Infinite Products of Nonexpansive Mappings</i>	149
11. P. Sahoo: <i>Fekete-Szegő Problems for Certain Class of Analytic Functions Associated with Quasi-Subordination</i>	161
12. S.K. Sharma, A. Esi: <i>Some Strongly Almost Summable Sequence Spaces</i>	171
